Pre-Submission Peer Review & Plagiarism Checklist

Author Self-Audit Quality Gate

Verify every item before manuscript submission:

[ ] Formatting matches the official Sanmati MS Word .docx template styles.

[ ] Abstract is under 250 words and contains no citations or raw math.

[ ] Keyword list includes 5-8 descriptive indexing terms.

[ ] Manuscript text does NOT disclose author names, affiliations, or institutional details.

[ ] Overall similarity index (plagiarism) is verified under 10% using standard screening.

[ ] Citations in text are mapped 1-to-1 with references listed at the end.

[ ] Reference section conforms fully to APA 7th Edition or IEEE styles.

[ ] All data, tables, figures, and statistical measurements are clear and labeled.

[ ] Conflict of interest statement is declared and written at the end of the manuscript.

[ ] Funding declarations and ethical clearance boards are referenced where applicable.

Note: Complete verification reduces desk-rejection rates by up to 80% and accelerates the double-blind peer review lifecycle.
